## ABOUT US

Mayfair Diagnostics is wholly owned by Radiology Consultants Associated. Founded by Calgary's first radiologist in 1911, Radiology Consultants is a group of over 40 radiologists specializing in all aspects of diagnostic imaging. With ten facilities across Calgary, we provide: ultrasound, bone densitometry, mammography, breast biopsy, nuclear imaging, fluoroscopy, image-guided pain therapy, echocardiography, myocardial perfusion scan, exercise stress testing and X-Ray. Mayfair Diagnostics is fully accredited by the College of Physicians and Surgeons of Alberta.

## YOUR EXPERIENCE

In our contemporary, relaxing facility, patient comfort is our first priority. While our state-of-the-art booking system is structured to keep wait times to a minimum, our private patient lounge is designed to make any waiting time as non-disruptive as possible. It offers a diverse selection of current reading materials, complimentary phones and Internet connectivity for laptops. Our facility has free 2 hours parking and we are fully wheelchair accessible. Our patient change areas are spacious and offer private, locking storage, cloth dressing gowns and a warm, comfortable environment.

## Relax, you're in good hands.

Mayfair Diagnostics is Calgary's first and only physician-owned and operated private MRI and CT facility. So your health is the reason for our existence. We've done everything we can to make our clinic a spa-like oasis of calm.

For those patients who have booked a CT Health Assessment exam, a fellowship-trained radiologist is available for your one-on-one private consultation.

We look forward to welcoming you in person.
